

CBOXMED3

3 pressure gauges stainless steel housing

Diam. 63 mm
Dim. 320x280xh119 mm

Codice/Ref.
CBOXMED3

Test kits are made for connecting any hydraulic equipment with standard threaded test couplings M16x2 and fitted micro-hose.

Pressure gauges are fitted with a Bourdon spring and liquid filled (glycerine 99.7%), according to DIN16005.

Ø100mm accuracy 1%.
Ø63mm accuracy 1.6%.

Each kit is supplied with a fitted female 16x2 2 metre microhose and gauges chosen from these ranges, in bar:

-1...0-0,6-1-1,6-2,5-4-6-10-16-25-40-60-100-160-250-315-400-600-1000.
